For Ablenet University
Winter -2020

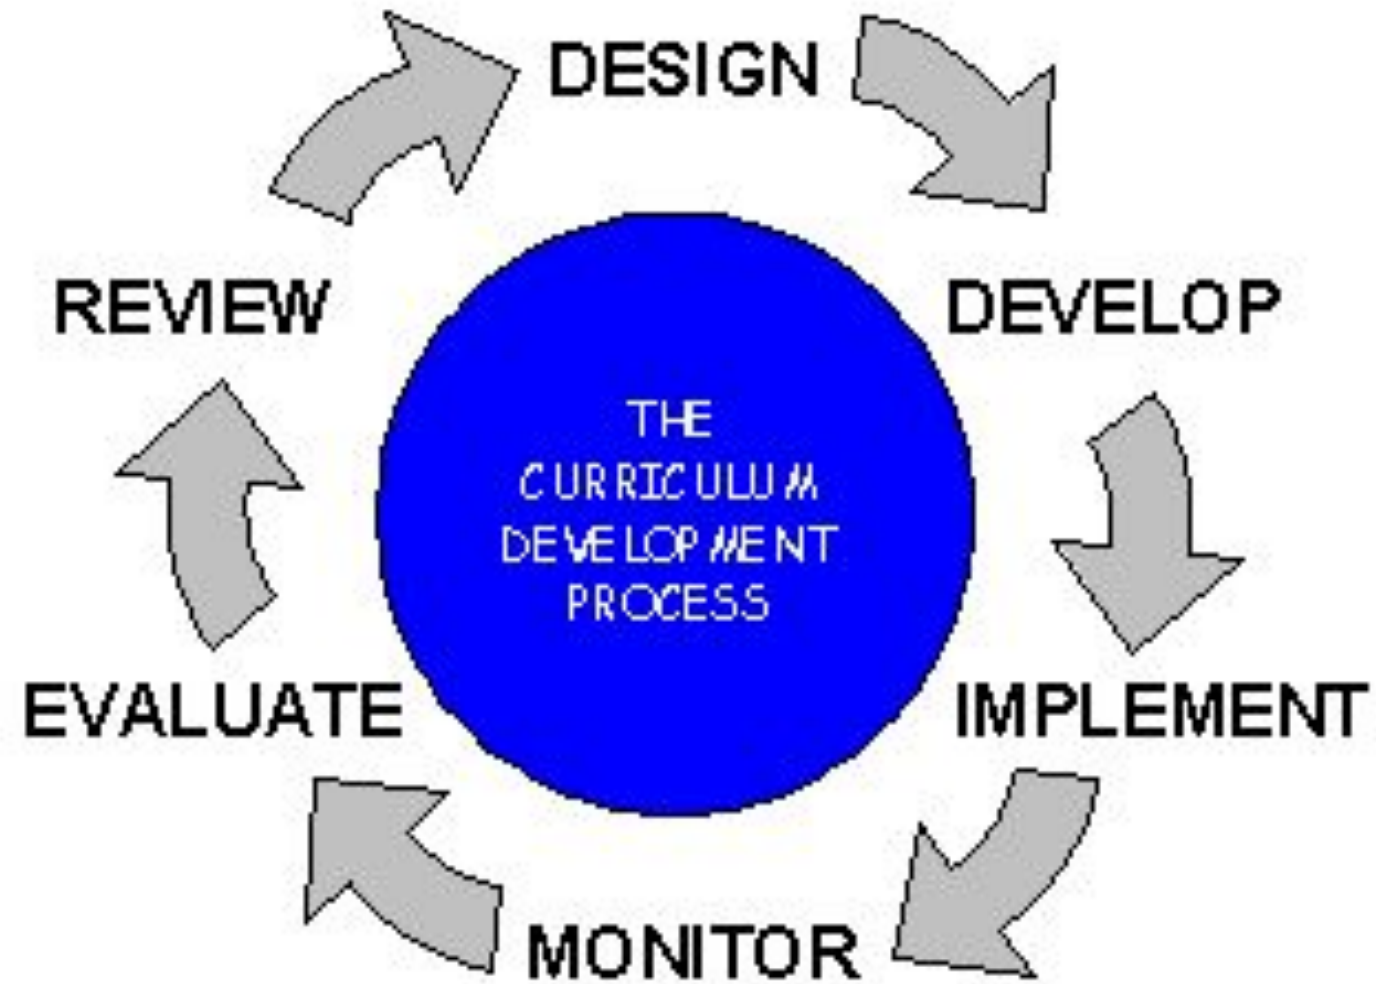

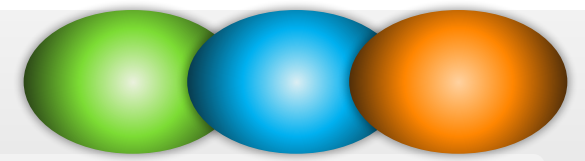

What makes a Curriculum?

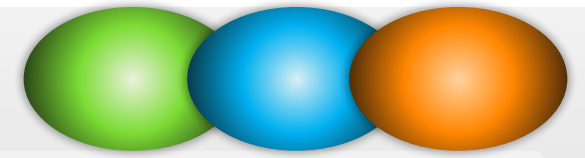

The 7 Rs of a Quality Curriculum

1. Rigorous
2. Real
3. Requires Independence
4. Rich in Thinking
5. Revealing
6. Rewarding
7. Reflective

*Ritchhart (2007) Education Quarterly
Australia*

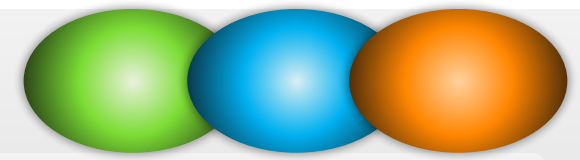

Specifics of OnLine Supports

- **Full Curriculum**
 - All Academic Areas
 - One Academic Area
 - Modified Curriculum
- **Supplemental Curriculum**
 - Literacy Supports
 - News/Current Events
 - Social Supports
 - Access Learning
- **Partial Online Supports**
 - Staff Supports
 - Parent Supports
 - Extension Activities
 - Testing Portions

N2Y: Unique

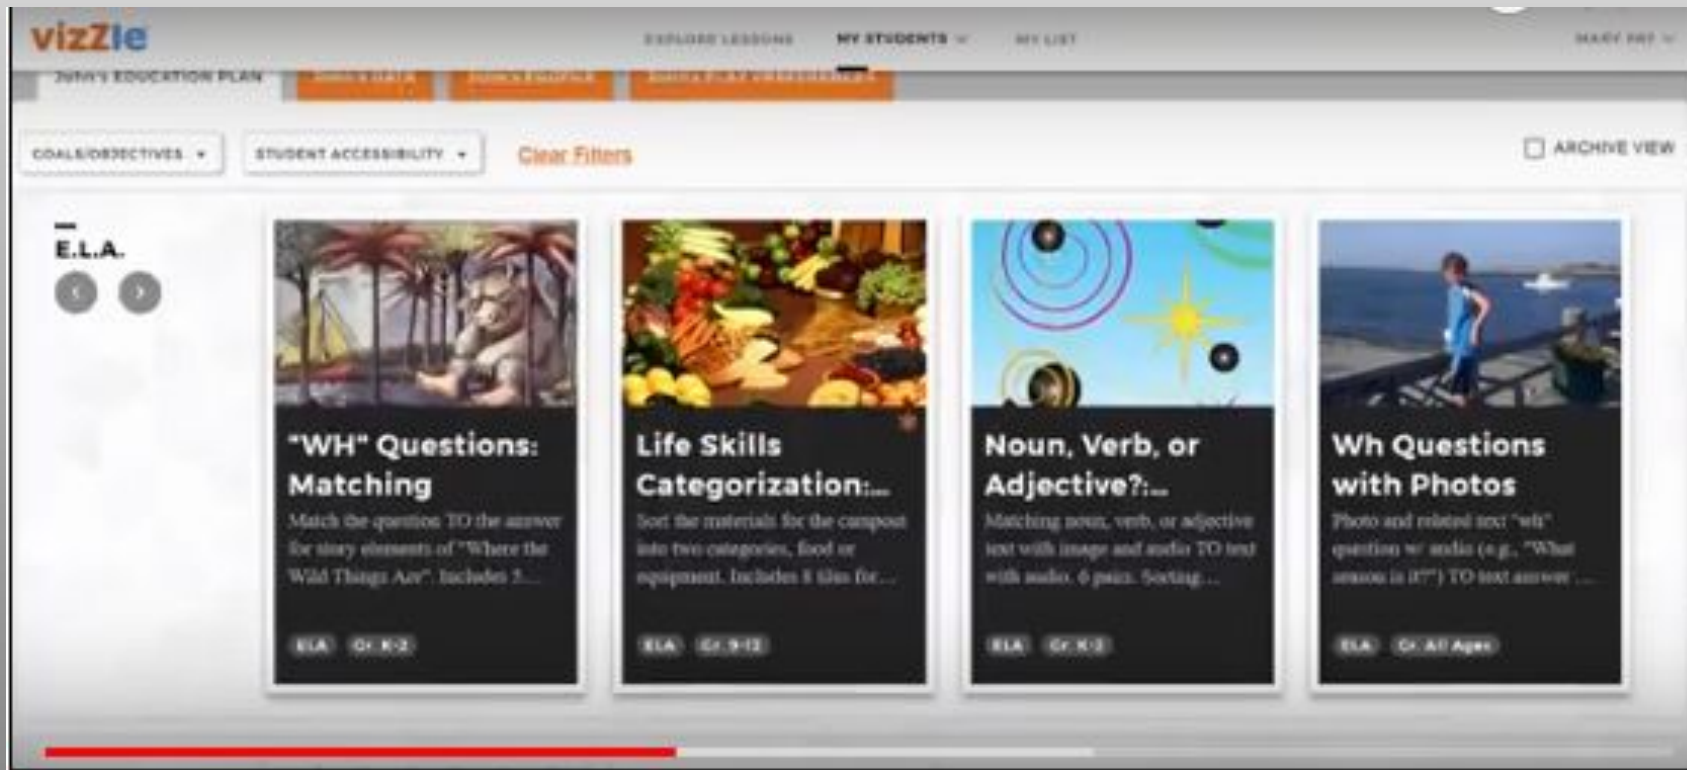

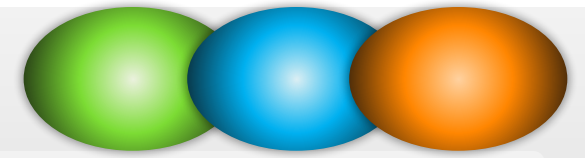

<https://unique.n2y.com/Unique/Home>

The screenshot shows the 'Unique Learning System' interface. On the left is a sidebar with icons for 'My Account', 'news-2-you', and 'unique'. The 'unique' section includes links for Home, n2y GPS, My Students, Reports, and n2y Library. The main content area is titled 'Unique / Monthly Lesson' and features a navigation bar with 'September' and 'October' tabs, a 'Grade Band' dropdown menu (currently set to 'Preschool'), and a 'Suggested Monthly Plan' section. Below this is a table of 'September Lessons' with columns for lesson number, title, and type. A 'Grades' dropdown menu is open, showing options from 'Preschool' to 'Transition'. The 'iDoc' button is also visible.

Lesson	Title	Type
Lesson 0	Unit Overview	
Lesson 1	Phil Grows Up	Leveled Book
Lesson 2	I Can Move	Go Along
Lesson 3	Look What I Can Do!	Easy Read Book

Curriculum

The primary and secondary phase curriculum is very much focused on stage rather than age and details of each area of learning is provided below. The rationale for each subject is outlined along with the range of opportunities provided for pupils at all levels. Links to SMSC & British Values are also included for each area of learning. We use a topic based approach throughout lower and upper school however the content of what will be taught each academic year and for which year group is changeable in order to meet the diverse needs of our pupil cohorts.

We are currently developing our curriculum to reflect the changes outlined in the Rochford Review. Our school looks forward to networking and working alongside other schools, please contact us should you like to discuss any aspects of the curriculum further.

Post 16 curriculum provides details of the underlying rationale alongside the key areas of focus and assessment systems.

The Sensory Curriculum provides a curriculum map and rationale – this is currently in the process of being updated.

Switch / Touch Screen Videos

Switch videos are animations or slideshows set to music, which can be controlled by a range of common assistive access devices. They are designed to help children understand and generalise cause and effect (the action / reaction bond), one of the foundation stones for early learning. The videos can be played online or downloaded for use on a PC or Macintosh computer.

Early Years Games **Stories** Creative Find Out

Cash Machine ATM
We have run out of money! Enjoy this fun picture story about a cash machine ATM.

Underground Subway
It's time to catch the underground subway. Mind the gap!

Photo Booth
Alex is going on a trip and needs his photograph taken. Can he keep a straight face?

Five Fat Sausages
Sizzling Sausages! Can you count them? Hope there's one for you!

Five Little Mice
While the cat's away, the mouse will play! But how many mice are there?

Five Girls in the Ring
The girls are dancing with a hoola hoop, but how many are there?

Five Currant Buns
Yummy! Currant Buns! Can you count how many there are?

Five Red Planes
How many red planes can you see? Learn the numbers to five with this catchy song.

Mobile Cell Phone
It's a nice day for a picnic, let's call a friend. But what happens when it starts to rain?

Switch Fan
It's hot in here today. What can we do to cool down?

Five Little Monkeys
The naughty monkeys are jumping on the bed. Be careful monkeys, don't bang your head!

Elevator Up
Up we go! But which is quickest, stairs or elevator?

Television Time
Our work is done and it's time for fun! But can we find the correct controller?

Five Little Ducks
How many ducks are out swimming today? Practice counting to five with this activity.

Five Brown Teddies
How many teddies are on the wall? Learn the numbers to five with the teddies and this catchy song.

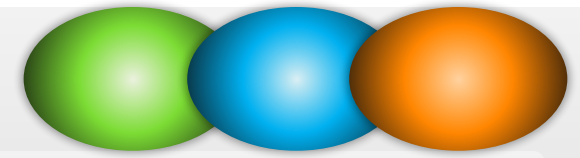

Five Trains
How many trains are on the track? Learn the numbers to five with the trains and this catchy song.

Stories

This collection of stories and songs will engage your learners and be lots of fun. Activities such as Counting Songs encourage learners to count from 1 to 5 with a catchy song and a pond full of sharks!

Testimonials

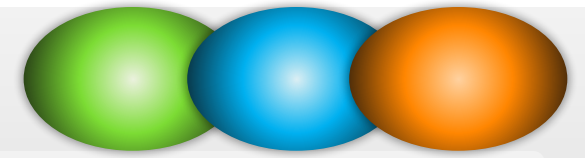

"I have used several of the success stories with students. The results have been overwhelmingly successful. The students love the personalization and graphics."

Success Stories

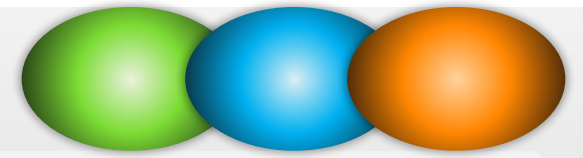

Success Stories are personalizable children's books. Customize the illustrations to the child's appearance based on gender, hair style and color, eye color, skin tone, glasses, and method of communication. Alter the text to personalize the story's content. These fun and engaging children's books make every child feel special. Build a book together for a fun and creative activity or let a child know you care by creating a book just for them. Our collection of children's stories addresses emotional, social, safety, and communication skills to foster character development. Register today for a free book, "Waiting".

Bridges – EducATe - Parents

educATe Family Online Course For Parents

Learn to help your child with reading & writing, using their Assistive Technology!

Does your child use adaptive devices or other technology to help them with reading and writing?

Do you want to help your child with reading and writing, but aren't sure where to start?

Helping your child with reading and writing doesn't have to be complicated. Become a homework help pro – the educATe Family online course can get you there.

So, what's educATe Family?

educATe Family is an online course with a series of short video lessons. Our mission is to give you strategies that you can use to help your child with reading and writing, right away! Access these video lessons whenever you want, wherever you want. Take the course at your own pace – when you purchase, you have access to the course forever.

You'll be able to apply the educATe Family lessons to whatever tools your child wants to learn, on any device!

Can your child use software like CoWriter, ReadWrite, CopyMate and Word Q?

Is your child using the software on a Chromebook, iPad, or laptop?

Whatever the software or device, we've got you covered! educATe Family will give you the knowledge you need to make a real difference in your child's learning.

BRIDGES CANADA
accelerating learning & achievement for all students

1.888.788.2700
www.bridgescanada.ca/parents

educATe Family Online Course For Parents

What will I learn?

With educATe Family, you'll learn some of all the video lessons in our Reading and Writing Modules. These are the 2 main topics of the course. In each module, we teach the basic theory of reading and writing, but also focus on reading and writing with assistive technology. We'll show you how all the assistive technology tools will support each strategy and help your child increase reading and writing skills.

What will I get from the course?

By the end of the course you will be able to help your child to complete reading and writing assignments successfully, with their favorite Assistive Technology tools.

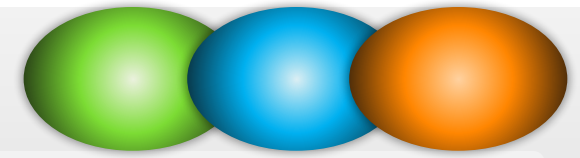

Outcomes

Sign up!

With a one-time purchase of \$179 you'll have access to the educATe Family course. Purchase the course through the Bridges website and you'll automatically be enrolled.

Bridges – EducATe - Staff

Online Courses For Educators

Boost your skills to help students maximize learning using Assistive Technology!

So, what is educATe Classroom?

educATe Classroom offers unique, bite-size approaches to providing online, on-demand learning. Delivered in bite-sized chunks, the lessons are considered at teachers' busy schedules. At your own pace, you'll learn strategies that you can use to help your students with reading and writing to learn.

You'll be able to apply the educATe Classroom lessons to whatever technology your students use, on any device!

On your student's device: for text-to-speech, speech-to-text, word prediction, graphic organizers, and assistive tools!

On your student's device: as a classroom, in-class, or at home!

Whether the software or device, we've got you covered! educATe Classroom will give you the knowledge you need to integrate assistive technology into your instruction so your students can access all they need to be successful learners in a 21st Century Classroom.

www.bridgescanada.ca

Online Courses For Educators

Special Offer!
\$59
 Bundle: Reading
 Course Bundle

2 Courses, 1 Comprehensive Unit

educATe Classroom is divided into 2 courses: Reading and Writing. Each course contains an in-depth look at strategies and techniques for maximizing learning with Assistive Technology. For a limited time, purchase both courses in a bundle with our special introductory pricing.

Both courses will maximize in detail:

- strategies teachers can use to model the use of assistive technology during whole class and small group instruction
- some of the challenges and roadblocks struggling readers and writers face
- some effective instructional strategies to assist students who lack skills in particular areas
- putting instructional strategies into action using technology tools in the classroom

educATe Classroom: Reading

Explore the components of reading comprehension with the principles of Universal Design for Learning in mind.

educATe Classroom: Writing

Examine the stages of the writing process, while considering strategies and techniques that comply with the principles of Universal Design for Learning.

Comprehension Check: 

Comprehension and retention is supported as you progress through the courses through short quizzes and reflections after each lesson.

Sign up!

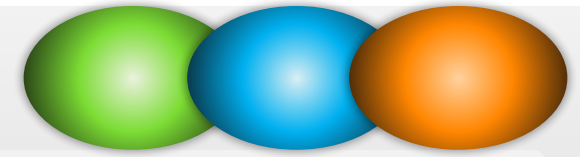

Take advantage of our limited time introductory pricing for the educATe Classroom Course Bundle. You'll have access to both the Reading and Writing courses for only \$59!

PRC: Language Lab

The screenshot shows a web browser window with the URL <https://aaclanguelab.com/lessons-activities>. The browser's address bar and tabs are visible at the top. The website's navigation menu includes links for HOME, GETTING STARTED, LESSONS & ACTIVITIES (which is the active page), CURRICULUMS, RESOURCES, and BLOG. There are also links for SUBSCRIBE and LOGIN. The main content area is titled "Lesson Plans & Activities" and features a large blue curved graphic on the left. Below the title, there is a paragraph describing the comprehensive collection of ideas and strategies. Two main sections are highlighted: "Lesson Plans" and "Activities". Each section has a representative image and a brief description of the resources available. The "Lesson Plans" section mentions instant access to activities, smart charts, and vocabulary based on core words. The "Activities" section mentions easy-to-find, fun games and activities adaptable for different learning objectives. At the bottom of the browser window, a taskbar shows various application icons and the system clock indicating 9:56 PM on 6/17/2019.

Lesson Plans & Activities

This comprehensive collection of ideas and strategies were developed to help guide your student through both educational and developmental milestones. These plans and activities will help your student improve functional communication in both structured and unstructured activities in all areas of the student's life. These materials include books, games, activities, smart charts with references to the Common Core Standards if needed.

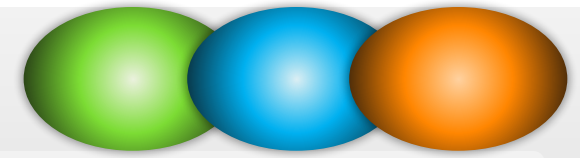

Lesson Plans

Lesson Plans give you instant access to a variety of activities that you can do with your student based on specific language objectives. Lesson plans do not have to be fully completed, simply choose activities that your student will enjoy. Smart charts are provided to help both you and your student find vocabulary based on core words. At the end of each lesson, you will find a link to more practice, the next language objective and some even include a homework card. Be sure to 'like' your favorite lessons to help others choose as well.

Activities

Activities are easy to find, fun games and activities that can be done with a variety of students, no matter what their language level. These activities were developed to engage students and are easily adaptable for different learning objectives. This section is also a great place to come to find activities to do on the fly when you find yourself with a little extra time. You can choose an activity based on a specific objective or choose one from the 'All Levels' section to use with all students.

Finding tactile graphics templates is now easier than ever!

APH's Tactile Graphic Image Library (TGIL) contains a pool of well-designed templates to aid with the creation of tactile graphics. TGIL 2.0 features improvements that make the website more accessible and more intuitive. Also, we have added a forum for tactile graphic discussions to aid in your design and production needs. All you need to do is register to begin using the free Image Library to find tactile graphic templates that can be enhanced for your needs.

The database will continue to be populated with new images regularly.

Sign up and get started today!
