What is twice-exceptionality?

- Giftedness
 - math
 - creative writing
 - music and the arts
- Evidenced as
 - passionate
 - desire to learn
 - out of the box thinkers
 - explorers
 - inventors
 - investigators
- Disability
 - learning
 - processing
 - developmental
 - emotional
 - behavioral
- Evidenced as
 - ADHD
 - dyslexia/dysgraphia
 - sensory disorder
 - autism spectrum
 - depression/anxiety

Common misconceptions

- [The dichotomy of 2e: Andrew's story](#)
- Those with learning challenges have no natural strengths
- Those who are gifted have no learning challenges (they're just lazy)
- [Understood.org: 7 misconceptions](#)

Uniqueness

Discussion/chat

1. How do you identify your 2e kids?

Notes

1. What common technology/social media tools can you use to encourage creativity and productivity?

How do we get them
from **frustration**
to **creativity and productivity**?

Writing

Mindmeister

Mindmeister is a fun tool that allows students to digitally brain map in a creative way! Add color, lines, bubbles, stickers, and more! Students can sign up with a google account or other email address under the education tab. Students can create their own mind map or choose from a template.

Rectangular Snip

Rich text editor toolbar with the following elements:

- Font color and background color pickers.
- Text and background color selection buttons.
- Smiley face icon for emojis.
- Image and video icons.
- Emoji selection row.
- Numbered list (1, 2, 3) and bulleted list icons.
- Indentation and alignment icons.
- Link and unlink icons.
- Checkmark icon.
- Speech bubble icon.
- Thumbs up icon with '0 votes'.
- Text input field labeled 'Add Comment'.
- 'Say it' button.

Study skills

The image shows a screenshot of a Wikipedia article titled "Olympic Games". The page is viewed through a browser with a toolbar at the top containing various icons for editing and navigation. The article text is highlighted in several places with colored boxes: blue for "International sporting event", green for "summer and winter sports competitions", yellow for "200 nations participating", and red for "Olympics has shifted away from pure amateurism, as envisioned by Coubertin". The sidebar on the left contains navigation links such as "Main page", "Contents", and "Tools". On the right, there is a "Main topics" section with a list of related subjects and a "Games" section with a list of specific events. The article text discusses the history of the Olympic Games, their evolution, and the role of the International Olympic Committee (IOC).

Olympic Games

From Wikipedia, the free encyclopedia
(Redirected from Olympics)

This article is about the modern games. For the ancient Greek games, see [Ancient Olympic Games](#). For the 1927 Our Gang short, see [Olympic Games \(film\)](#). "Olympics" redirects here. For other uses, see [Olympic \(disambiguation\)](#).

The modern **Olympic Games** (French: *Jeux olympiques*^[1]) are the leading **international sporting event** featuring **summer and winter sports competitions** in which thousands of athletes from around the world participate in a variety of competitions. The Olympic Games are considered to be the world's foremost sports competition with more than **200 nations participating**.^[2] The Olympic Games are held every four years, with the **Summer and Winter Games** alternating by occurring every four years but two years apart. Their creation was inspired by the ancient Olympic Games, which were held in Olympia, Greece, from the 8th century BC to the 4th century AD. **Baron Pierre de Coubertin** founded the **International Olympic Committee (IOC) in 1894**. **The IOC is the governing body of the Olympic Movement**, with the **Olympic Charter** defining its structure and authority.

The evolution of the Olympic Movement during the 20th and 21st centuries has resulted in several changes to the Olympic Games. Some of these adjustments include the creation of the **Winter Olympic Games** for ice and winter sports, the **Paralympic Games** for athletes with a disability, and the Youth Olympic Games for teenage athletes. The IOC has had to adapt to a variety of economic, political, and technological advancements. As a result, the **Olympics has shifted away from pure amateurism, as envisioned by Coubertin**, to allowing participation of **professional athletes**. The growing importance of mass media created the issue of corporate sponsorship and commercialization of the Games. World wars led to the cancellation of the 1916, 1940, and 1944 Games. Large boycotts during the Cold War limited participation in the 1980 and 1984 Games.

The Olympic Movement consists of international sports federations (IFs), National Olympic Committees (NOCs), and organizing committees for each specific Olympic Games. As the decision-making body, the IOC is responsible for choosing the host city for each Games, and organizes and funds the Games according to the Olympic Charter. The IOC also determines the Olympic program, consisting of the sports to be contested at the Games. There are several Olympic rituals and symbols, such as the Olympic flag and torch, as well as the opening and closing ceremonies. Over 13,000 athletes compete at the Summer and Winter Olympic Games in 33 different sports and

EasyBib®
a Chegg® service

Study Skills

EasyBib is a great add-on tool located in Google Docs that allows students to cite their sources correctly. It is a great way to teach students to give credit to the website, book, author, etc. that they took their ideas from. EasyBib is a no hassle tool!

- Click “Add-ons”
- “Get add-ons...” and search for EasyBib
- Add the tool

When you are ready to use go back to the add-ons to find EasyBib. Now you are ready to search for the website, book, or journal article used and click “Add Bibliography to Doc”.
