

AAC Checklist

Follow this three-step checklist to help your client or student obtain their own QuickTalker Freestyle speech device, paid for by medical insurance, in an average of 30-days!

Who could benefit from a QuickTalker Freestyle?

Anyone using no-tech, low-tech, mid-tech, or high-tech AAC can benefit. You choose the speech app that meets their needs today and can change it in the future.

Submit a benefit check at quicktalkerfreestyle.com

The benefit check allows AbleNet to determine insurance benefits, determine if a trial is required, and unlocks access to the AbleNet team for questions.

Write the speech evaluation

AbleNet provides a template that lets you quickly write your speech evaluation. Before we submit it to the insurer, we review it to ensure it meets their requirements.
