

Why Thousands of SLPs Have Chosen to Work With AbleNet

- **30 days*** is the average time it takes AbleNet to fund a QuickTalker Freestyle speech device and help someone start their communication journey.
- AbleNet streamlines the process so **ALL** SLPs, regardless of their experience, can provide voices to their students and clients.
- Our ableCARE program allows you to swap your speech app or device size, **for free**, even after the QuickTalker Freestyle has been delivered.

*Average time calculated using individuals who started and completed the funding process in the past 90-days.

How does it work?

Hear what other SLPs have to say!

Why QuickTalker Freestyle?

8,000+

SLPs empowered by AbleNet to provide voices to their clients and students

28,000+
Voices Requested

Stress-Free Process

Our team does everything except write the speech eval, which allows us to get someone their voice faster than anyone else.

SLP Support

AbleNet provides a template that lets you quickly write your speech evaluation. Before we submit it to the insurer, we review it to ensure it meets their requirements.

ableCARE Support

ableCARE supports the device user, their family, and the SLP for 5-years to ensure everyone achieves best outcomes.

Total Flexibility

Choose any speech app from the App Store and device size with the option to change later at no cost. Just contact ableCARE, and they'll get the process started for you!

A Warranty Without Limits

Our warranty is simple. If a QuickTalker Freestyle needs a repair during the 5-year warranty period, we fix it. No additional fees. No waiting weeks or months for someone to resolve your issue. No limits on the number of warranty claims.

Price Value

QuickTalker Freestyle meets the medical necessity requirements for most users' communication needs while being the most cost-effective device compared to all other alternatives.
