

# Incident-Based Support

Supporting best outcomes for QuickTalker Freestyle users, their families, and Speech-Language Pathologists

When an individual receives their QuickTalker Freestyle, it's time to celebrate the beginning of an exciting communication journey.

Our ableCARE Product Success team is here to support the device user, the family, and the Speech-Language Pathologist. Our incident-based approach provides you with on-demand support that ensures the speech device user can get started using their voice right away!

## Fast Onboarding

Get started as soon as the QuickTalker Freestyle arrives. ableCARE is available to answer questions as you have them.

## Reduced Downtime

ableCARE is easy to contact so you're not waiting to get questions answered.

## Personalized Approach

Incident-based support is personalized to your immediate needs.
