

## We believe in the power of communication to help all individuals reach their maximum potential.

Your speech therapist and AbleNet Next Step Project Manager help your child obtain a QuickTalker Freestyle speech device paid for by their medical insurance. The QuickTalker Freestyle allows your child to use any speech app and gives them the power to communicate in a way that best meets their needs.

### Step 1

Your Speech-Language Pathologist is considering a QuickTalker Freestyle speech device for your child

### Step 2

AbleNet will reach out to you for your insurance cards, physician information, and a signed medical release

### Step 3

AbleNet will work with your insurance company, speech therapist, and doctor to get the speech device for your child

### Step 4

We will send out your child's new QuickTalker Freestyle

### Step 5

Your child can get started using their voice!
