

AAC Checklist

Follow this 3-step checklist to get individuals with communication disorders their own AAC device, paid for by their medical insurance, in just a matter of days!

Determine who could benefit from AAC

With the ability to choose any speech app, the QuickTalker Freestyle can work for individuals using no tech, low tech, mid tech, and high tech speech devices.

Submit a benefit check

This form allows AbleNet to check the individual's medical insurance coverage before you spend time trialing it or showing it to the family - we don't want anyone to waste anyone's time!

Write the speech evaluation

All we ask the SLP to do is write the speech evaluation, and we even provide an easy-to-use template to help!
